Template repository
Template repositories let users generate new repositories with the same directory structure and files. Learn more about template repositories.
Default branch
The default branch is considered the “base” branch in your repository, against which all pull requests and code commits are automatically made, unless you specify a different branch.

Unexpected bad things will happen if you don’t read this!
This will permanently delete the kore2026/SortingTool repository, wiki, issues, comments, packages, secrets, workflow runs, and remove all collaborator associations.
I have read and understand these effects
